Dear Caroline

**PROJECT PROPOSAL:
European Network of Municipalities and Rivers**

I refer to your proposal to submit a bid for Interreg funding to enable the establishment of networks for local municipalities within the partner countries to share their experiences of improvements in surface water quality.

I am writing to offer the support of the Environment Agency in the establishment of such a network which I feel will be of considerable benefit to all participants.

As our organisations have been working collaboratively for many years, I see this as an opportunity to further link our activities and to benefit from experiences elsewhere.

I wish you every success with your application.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Clive Gaskell'.
